## **bio**

v o z i a n o v brand is designed by Fedor Vozianov.

Fedor was born in Kiev. He obtained university degree in linguistics. Fashion design had been his passion since he was a young boy. Just for beauty. He is working as professional designer since 1998. He gathered team of professionals ready to go beyond stereotypes on early 2004. Since that time Fedor Vozianov creates garments, accessories and footwear. According to the world fashion industry schedule Fedor shows his collections twice a year on WHITE Donna and TRANOÏ Femme shows.

## **style**

Inspiration to innovations lies in a plane of geometric shapes and lines purity.

Being avant-garde v o z i a n o v style remains wearable in the street and conservative to certain extent. External simplicity of garments is hiding sophisticated nature.

We intend to make garments which naturally fit into the urban surroundings and are wearable in a dynamic city with ease and pleasure.

Our clothes are designed for a genuine and fragile yet brave and independent woman living with passion every aspect of a modern life.

Personality strength, nature's daring, rigidity of forms, clarity of silhouette and naturalness of woman's body curves are the dominant collection. Clothing lines, laconism and elegance of style, puts a premium on feminine individuality.

The geometry of polylines is replaced with smooth ones, graphics of folds turns to easy flowing textures of linen and silk.

Intelligence becomes emotional when motion of two-dimensional volumes is complemented with vivid splashes of orange, restrained shades of gray, saturated green, airy forms of vests, which are connected with understatement and verbosity of black and ivory.

Aesthetic avant-garde and bold stylistic solutions that are hidden behind the outward simplicity of traditional forms.
